

Acknowledgements:

ITCC, European no-profit Consortium, is pleased to announce the 3rd ITCC training course devoted to early drug development in paediatric patients with cancer.

This course is a clinically-oriented educational programme designed for doctors and research nurses working in ITCC centres. It is open also to interested applicants from non-ITCC European institutions and Pharmaceutical industries.

The course will include a pre-meeting e-learning and web-based educational material from the experts together with selected recent publications that will represent the basic information for course attendance. The on site course will include up-to-date teaching, critic interactive evaluation of problems encountered in pediatric clinical trials conduct and practical workshop sessions about setting-up and executing efficient clinical trials in children with cancer.

40 participants will be admitted. Selection will be made on the basis of personal CV.

Pantheon—Roma, 125 d.C.

Course Venue

Policlinico Universitario "A. Gemelli"
Università Cattolica del Sacro Cuore
Largo A. Gemelli 8, 00168 Rome, Italy
Room "Brasca", 4th Floor

Course Secretariat

Sonia Terella
Mirella Oddi

Registration to the Course

Up to 31 March 2011

€ 500 + Vat 20% — ITCC centres members

€ 1.300 + Vat 20% — non ITCC centres members

After 31 March a supplement of € 200,00 + 20% Vat will be applied to any category.

Registration Fee includes

- attendance in the scientific sessions
- Coffee breaks and working lunches according to programme
- Social events as indicated in the programme

Cancellation

No refund is allowed. Name change is allowed prior to May 15.

Registration procedure

Please send your application and CV to
manuela.morandini@ptsroma.it
Payment conditions will be notified upon admittance.

ITCC-ENCCA TRAINING COURSE 2011

RATIONAL DRUG DEVELOPMENT IN CHILDREN WITH CANCER

May 25-27, 2011

Università' Cattolica del Sacro Cuore
Rome, Italy

Preliminary Programme

Faculty

<u>25 May 2011</u>	<i>16.00-16.30 Coffee Break</i>
14.30-14.40 Introduction to the course Riccardo Riccardi	16.30-18.30 Interactive session Protocol development: phase I trials with examples of protocol in preparation for CNS tumors Darren Hargrave
14.40-15.30 Pre course questionnaire	<i>20.30 Attendees and faculty dinner</i>
15.30-17.30 Interactive session Specificities of phase I trials with targeted agents in selected populations: challenges and possible solutions (ITCC-003 erlotinib trial an example). Interactive: problems and solutions during the trial conduct Birgit Geoerger	<u>27 May 2011</u>
17.30-18.00 Measurement of tumor response in pediatric oncology Kieran McHugh	08.30-09.15 Targeted-therapy driven clinical trials in children with cancer. Monique Den Boer
<i>20.30 Attendees and faculty dinner</i>	09.15-11.15 Interactive session Protocol development: phase II trials in leukemia. Interactive: problems and solutions during the trial conduct. Carmelo Rizzari and Michel Zwaan
<u>26 May 2011</u>	<i>11.15-11.45 Coffee Break</i>
"Present and Future of Pediatric Investigation Plan"	11.45-12.30, Biomarkers in anticancer drug development Herbie Newell
08.30-09.15 Strategy for the development of the Innovative Therapies for Children with Cancer Gilles Vassal	12.30-13.00 Challenges of introducing new therapies into standard of care Kathy Pritchard-Jones
09.15-10.00 Pediatric Investigation Plans: current status and future direction Ralf Herold	<i>13.00-14.30 Lunch</i>
<i>10.00-10.30 Coffee Break</i>	14.30-15.00 Challenges in translating adults results in children: Hodgkin's disease as an example Graziella Cefalo
10.30-11.00 What's new from ITCC Biology Committee Hubertus N. Caron	15.00-16.45 Interactive session Design and conduct of an ITCC phase II trial adding on a new agent to phase III protocol Bruce Morland
11.00-11.45 Academia-Pharma collaboration in Pediatric Oncology Louis Viviers	<i>16.45-17.15 Coffee Break</i>
11.45-12.30 Pharmacovigilance Salim Laghouati	17.15-18.00 Partnership inbetween Pharma-Regulators-Academia Gilles Vassal and Panel
<i>12.30-14.00 Lunch</i>	
14.00-16.00 Interactive session Difficulties in proposing an early clinical trial to patients and parents. Interactive: how to deal with ethical and practical issues during a trial conduct Judith Landman-Parker and François Doz	

Hubertus N. Caron	<i>Amsterdam, NL</i>
Graziella Cefalo	<i>Milano, IT</i>
Monique Den Boer	<i>Rotterdam, NL</i>
François Doz	<i>Paris, FR</i>
Birgit Geoerger	<i>Villejuif, FR</i>
Darren Hargrave	<i>Sutton, UK</i>
Ralf Herold	<i>London, UK</i>
Salim Laghouati	<i>Villejuif, FR</i>
Judith Landman-Parker	<i>Paris, FR</i>
Kieran McHugh	<i>London, UK</i>
Bruce Morland	<i>Birmingham, UK</i>
Herbie Newell	<i>London, UK</i>
Kathy Pritchard-Jones	<i>London, UK</i>
Riccardo Riccardi	<i>Roma, IT</i>
Carmelo Rizzari	<i>Monza, IT</i>
Gilles Vassal	<i>Villejuif, FR</i>
Louis Viviers	<i>Villejuif, FR</i>
Michel Zwaan	<i>Rotterdam, NL</i>
